

About Chennai...

Chennai, the largest city in south India is located on the Coromandel Coast of the Bay of Bengal. The long esplanade beside Marina Beach, the second longest beach in the world, lined by impressive buildings remind the visitor of the long and inseparable association the city has had with the British.

Madras Joint Replacement Center

Your orthopaedic surgery in Chennai...

The Surgeon...

Dr. A.K. Venkatachalam, MS, DNB, FRCS (UK), MCh (Liverpool), trained in the UK with leading Knee, Shoulder and Hip surgeons. He has worked in the UK, Belgium, Oman and Dubai.

The Hospitals...

A variety of rooms are available. These have a TV, room service, attendant's couch. It has adequate infra-structure to perform all necessary investigations. Equipment is available to handle all aspects of my practice. The anesthetists are proficient in regional and local anesthesia techniques to alleviate pain. The ICU is monitored by alert physicians around the clock. Colleague physicians provide prompt support for multi-specialty referrals.

Patient Stories . . .

"It is a great pleasure for me to squat on the ground and to offer Namaz in an usual way after a knee replacement. You have made it possible. Three cheers to you."

Dr. MSH, First High flexion Knee replacement, Lucknow, India

"Dear Doctor, I trust all is well. Just to let you know I have had a 8 month follow up check with an orthopedic consultant here in UK. He took some pictures and said all looks good, in place and well."

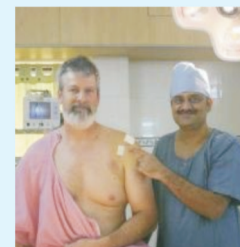

CA, Bilateral Mobile bearing knee replacements, UK

"The nursing staff are were very clean, smart and professional. The room was cleaned twice a day and sprayed a number of times. The operating theater was very modern."

BT- Bilateral High flexion Knee replacements, UK

"I haven't really taken anything for pain after surgery since I've been home, which everyone finds surprising. I tell them that, when you have a Dr. that really knows what he's doing, you heal better and faster."

DH, Rotator cuff repair, USA

"After ten days of surgery the constant nagging pain that had been with me for more than a year had gone and I enjoyed my first full night's sleep for that same period. In front of me now is physiotherapy and a return to normal life."

MC, Shoulder decompression and collar bone excision, Wales

Surgery and Holiday

You can enjoy a holiday in luxurious sea side resorts nearby or take a trip to Kerala.
